

Equity in the Department of Physics

SCIENCE
DEPARTMENT OF PHYSICS

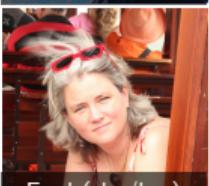

Our Mission

We are committed to supporting everyone's aspirations to study and work in physics, regardless of age, disability, gender, ethnicity, religion, or sexual orientation. We firmly believe that diversity is key to achieve groundbreaking advances and to unlock the full potential of humanity. Our aspiration is to be a Department that welcomes, fosters, and embraces diversity for the betterment of the discipline and the society. Similarly to The University of Auckland more broadly, we recognise the status of Māori as tangata whenua and acknowledge the principles of Te Tiriti o Waitangi.
